# Install IIS Web Server Using PowerShell ISE

The screenshot displays a Windows desktop environment. On the left, the taskbar includes icons for the Recycle Bin, EC2 Feedback, and EC2 Microservices. The main area is occupied by an Administrator Windows PowerShell window. The window title is "Administrator: Windows PowerShell". The text inside shows the command `Install-WindowsFeature -name Web-Server -IncludeManagementTools` being executed. Below the command, a table displays the results of the installation. The table has columns for Success, Restart Needed, Exit Code, Feature, and Result. The first row shows a successful installation of the Web-Server feature.

64-bit (Arm)

**Are you launching a database instance? Try Amazon RDS.** **Hide**

Amazon RDS

Amazon Relational Database Service (RDS) makes it easy to set up, operate, and scale your database on AWS by automating time-consuming database management tasks. With RDS, you can easily deploy **Amazon Aurora, MariaDB, MySQL, Oracle, PostgreSQL, and SQL Server** databases on AWS. **Aurora** is a MySQL- and PostgreSQL-compatible, enterprise-class database at 1/10th the cost of commercial databases. [Learn more about RDS](#)

**Launch a database using RDS**

**Microsoft Windows Server 2019 Base** - ami-0239d3998515e9ed1 **Select**

Activate Windows  
Go to Settings to activate Windows.

# Download and Install MobaXterm Portable Edition

# Launch the Ubuntu Instance Using SSH

The screenshot displays the AWS Management Console interface. The top navigation bar includes the AWS logo, 'Services', 'Resource Groups', and user information (Kowsalya, Ohio, Support). The left sidebar shows the 'EC2 Dashboard' and 'Instances' section. The main content area shows a table of instances with the following data:

Name	Instance ID	Instance Type	Availability Zone	Instance State	Status Checks	Alarm Status	Public DNS (IPv4)
Ubuntu	i-0cf540a6e94b45e3f	t2.micro	us-east-2b	running	2/2 checks ...	None	ec2-3-135-236-61.us-e...

Below the table, there are sections for 'System reachability check passed' and 'Instance reachability check passed'. At the bottom, there is a 'Submit feedback' link and an 'Activate Windows' watermark.

# Verify the Intallation of nginx

## Welcome to nginx!

If you see this page, the nginx web server is successfully installed and working. Further configuration is required.

For online documentation and support please refer to [nginx.org](https://nginx.org).  
Commercial support is available at [nginx.com](https://nginx.com).

*Thank you for using nginx.*

Activate Windows  
Go to Settings to activate Windows.

Thank You
